Re: BIA Lease N00-C-14-20-8396  
SW $\frac{1}{4}$ , Section 18, T13N, R10W, NMPM

Dear Mr. Lynch:

In compliance with our Uranium Lease Contract, Section X, Paragraph 8, concerning the surface acreage disturbed, rehabilitated, and methods of rehabilitation, the following report is submitted.

Approximately fifteen acres were disturbed during operations. Of the disturbed acreage, 33% has been reclaimed by minor recontouring and the plugging of drill holes with chips and/or nearby surface material which is then capped with a five-foot cement plug. Surface disturbance was minimal for transportation, and drilling was confined mostly to existing access roads utilized by people living in the surrounding area. Natural means will aid the rehabilitation process in some areas.

Sincerely,

*Richard A. Trout*

Richard A. Trout
